EVIDENCE OF BUSINESS ABILITY.

The town of Verdi, our near neighbor, is a live burg and should command the consideration which is its due for energy and enterprise. The history of the town that takes the name "Verdi" is identical in time with the appearance of the Central Pacific railroad. Crystal Peak, which was approximately a half mile distant from the site of Verdi, was in early days an enterprising village at the foot of the mountains on the road leading to Sacramento.

When the railroad was built over the route between California and Nevada, it was given a position as a main line, and the time came when the town of Verdi at Crystal Peak, Nevada, was the next to the mountains, and was covered with fine timber waiting the ax and the saw to prepare it for market. A few far-seeing and enterprising men took in the situation at Verdi and the timber near it and made a location at the place with reference to the future. That future has come and they are now engaged in making use of it to their advantage and the advantage of others who have made homes in the town.

These enterprising men have not only made Verdi a live camp, but they will succeed in making their energy and business judgment a source of business energy wherever the business of Verdi is extended to meet its demands upon the business public.

O. Lonkey, who is a broad and liberal business man, has been the chief in business enterprise connected with the work of development. He has had efficient aids in the work he had and continues to have on hand in connection with the lumber interests provided by an abundance of fine timber near the town of Verdi.

There are facts not in the writer's possession which it is his intention in the near future to procure before entering upon any detail of the work of these intelligent helpers in the development of the great work entered upon as a result of a steady advance for many years. These aids of Mr. Lonkey are careful business men, which is an additional circumstance that establishes the business capacity of O. Lonkey as a director of business affairs. Modest and unassuming in his manner of life, as brainy men usually are, O. Lonkey has made known his business capacity through deeds crowned by business success.

The great work when regarded in the light of a private enterprise which is going forward through the construction of a railroad from the mills at Verdi to the pine forests in the Sierras is an evidence of the superior business ability of one of Nevada's pioneers in the timber business, connected with the forests of the Sierra Nevada near the Truckee river and the Central Pacific railroad. Mr. Lonkey is giving evidence of his foresight respecting the enterprise he has on hand in connection with others who have joined him and of his ability to size up future possibilities, which declares the business ability of the man and the ability and efficiency of those of his aids who have been for years identified with him and his business.

THE CZAR IN TROUBLE.

The Czar is in trouble over his life and is engaged in taking precautions to save it for further use in the work of oppression which the people of Russia, it is proper to say from reports received, are becoming tired of having applied to their persons and property. It is strange that those engaged in absolute government cannot or will not comprehend the meaning of unrest among the people to whom it is applied. They seem to be incapable of learning that there are other remedies for oppression than improved methods to continue it, when it galls the bodies and minds of those whom oppression is making desperate.

The Czar and those by whom he is surrounded in the capacity of ministers seem to believe that the only remedy there is for oppression is more of it. Such was the opinion of Louis XIV and Louis XV of France, but the remedy cost Louis XVI his head under circumstances which the civilized world at the time condemned without understanding the natural laws which were involved in the French revolution.

Nature is ever true to itself, but in its truth it often becomes violent when

preceding causes have been violent and long continued. Unreason meets unreason in contention, as a result of cause and effect, and an astonished world condemns, while ignorant of the causes and their operation which opposed each other.

It is said the Czar has lost confidence in his own household, which should be veritable death to a sensitive man while he yet lives. The locks and fastenings upon his bedroom and office doors have been changed, which is not deemed sufficient to protect the royal life, and to give additional security the inside of the walls of these rooms have been lined with steel plates to prevent the use of firearms for his assassination.

Revolutionary pamphlets are plentiful and so are arrests. The prisons are full of those who are suspects, and the work goes on in defiance of the police and arrests made. The time is not distant when Russia will furnish to the world conditions similar to those carried forward by St. Paris commune in the time of Robespierre and others of his sort.

ABOUT MINE AND MINER

Notes Gathered From Exchanges

About This Industry.

The latest New York quotation for silver is 60 1/2 cents. Lead \$4.00.

Joe Cook has bonded the Bullionville mine.

John F. McDonell, Vice President of the Western Federation of Miners, has received a letter requesting him to go to Tonapah to organize a Miners' Union. The union will start with a membership of 200, and he will leave in a few days to arrange the details of the organization.—Virginia Chronicle.

J. H. Marriot of Tongaton has lately shipped two tons of huberite concentrates east, which will run into the hundreds of dollars in valuation. The property is looking fine, says the White Pine News.

Prophecies for Coming Season.

Reports relative to the snowfall in Nevada during February, 1901, have been kindly furnished by social correspondents of the weather bureau respecting all sections of the State. According to the information contained in these reports it appears that the snowfall was much heavier than usual in most localities, especially in central, southern and western districts where the depth was greater than recorded for any February in the past ten years.

In the high ranges the average depth of snow at the close of the month was from two to four feet, with deep drifts in the ravines and gulches.

The mild weather and warm rains during the last half of the month caused a rapid disappearance of the snow from the valleys, foothills and table lands of high elevation.

The majority of correspondents predict that the water-flow this year will be greater and more prolonged than for the past two or three years.

Will Improve Typographically.

The Mergenthaler type-setting machine, upon which the JOURNAL will be set up, has arrived from the east. It will be set up and be in running order by the last of the month. The machine is one of the latest and most improved types, with a two letter attachment. By its aid the JOURNAL will be greatly improved. Additional news matter will be run and the typographical appearance of the paper improved.

It is very probable that after the first of April advertising rates on new contracts will be advanced on account of better display of ads and increased circulation. In the meantime all advertising contracts will be taken at the old rates.

Relief May Come to the State of Nevada.

SAN FRANCISCO, March 23.—The Legislative committee from Nevada met the Southern Pacific officials, including President Hays and Vice-President Stubbs, at 11 this morning.

They were cordially received. A recital of the grievances and discriminations suffered by the people of Nevada were listened to with consideration and relief is expected along certain lines in the near future.

The interview lasted two hours and was harmonious to a degree. The officers stated that they will give all the matters discussed their deliberate consideration..

Japan May Fight Russia.

BRYAN CITY DOINGS

Happenings in one of Washoe's Flourishing Mining Camps.

The sound of the hammer and saw is heard in Bryan city. Reno's prosperous mining suburb. Eighteen men are now employed in the camp and shipments of bonanza ore are being made every few days. One carload from the Reno star mine recently returned about \$10,000; this was hornblende. Another carload of even richer rock is ready for shipment.

During the past month not a ton of waste has come out of the Reno star. The ore is phenomenal in its richness. The bins are never unguarded for a moment.

One of the Wedekind boys is having him a house built. From the manner of its construction there is but one conclusion to arrive at, namely that the builder has tired of single blessedness.

The Bell dumps are becoming huge. There is no evidence that he has tapped the lead.

"Chloride" Thompson has struck ore at last. He says that all that he got previously was "traces," but he thinks the whole harness is in sight now.

The Smith & Kelly mine is shut down at present. This is a promising claim. It is an extension of the Reno Star and it is on the trend of the lode.

John Wedekind, who leased his father's waste dumps, has sorted out a carload of pay rock for shipment.

PERSONAL MENTION

Gossip About the Migrating Public as They Come and Go.

Frank Golden is down from Carson. George Bliss is down from Lake Tahoe.

W. F. Stewart is spending today on the Comstock.

L. F. Sherburne of Fruitvale, Cal., is at the Riverside.

W. B. Graham has returned to Ely after a short visit to Reno.

T. M. Brandon will spend the next couple of weeks at Battle Mountain.

Superintendent Deegan of the Go Down mine on Granite hill is spending a few days in Reno.

Mrs. Bruce Coffin has returned from San Francisco where she underwent a surgical operation.

Much Ado Made About Nothing.

Last night an aggrieved and somewhat aggressive citizen came into the JOURNAL office looking for the editor.

He wanted an item corrected. That was pardonable, in fact, under the circumstances, praiseworthy.

But he came, led and backed by a quarrelsome individual who has a penchant for unreasonable and trouble-courting loquacity.

Notwithstanding that the JOURNAL scribe is afflicted with heart failure, and weak knees, he couldn't stand the works of the visitors and the item in question will be allowed to remain as it was "wrote" for a day or two. In the meantime no reasonable offer from any reputable life insurance company will be refused.

If the aggrieved citizen will drop in when in a less pugnacious mood he will be met more than half way on any reasonable proposition he may make and be accorded the most courteous and equitable treatment.

The article above alluded to is alleged to be incorrect, and probably is, but it was going the rounds of the press and drifted into the columns of the JOURNAL via the scissors and paste route.

Opening Days.

Thursday, Friday and Saturday, March 21st, 22d and 23d.

We are showing 200 trimmed hats at such prices as will fully demonstrate that we propose to do the trimmed hat business of the city. Our exhibitions of these hats are well worth a visit from every lady in Reno, whether she buys or not. You are welcome. You should see our hats for children. You will be surprised to see the cute styles, shapes and trimmings at Miss A. Motley's, 208 Virginia street. 21m1w

The Next Attraction.

A feature in the production of Chas. H. Yale's mechanical and operatic trick spectacle "The Evil Eye," under the management of Sidney R. Ellis, is the singing of Miss Mayme Mayo. Her voice is one of excellent quality and compass and her selections are rendered in such a manner as to reach the hearts of her audience.

Anyone in need of a good clock should take advantage of the great special clock sale for one week only at the Frank Golden Jewelry Company's store. 22mtf

Miss Minnie Knox Tendered a Party.

Last evening the Reno Dramatic Club tendered a surprise party to Miss Minnie Knox at the home of her father, H. L. W. Knox. In a few days Miss Knox will leave for New York to join the Lewis Morrison Company.

Games, conversation and refreshments were the order of the evening. The guest of honor entertained the company with an eloquent selection, rendered in a finished and artistic manner.

While the dramatic club sustains a loss in Miss Knox's departure, the members heartily congratulate her on her promotion from the amateur to the professional stage.

Display of Spring Modes.

Miss Gibbs and her trimmer have returned from San Francisco where they studied the new spring modes. A splendid line of seasonable millinery has been opened at Miss Gibbs' store and the place is daily thronged with ladies, who are astonished not only at the beauty of the styles but the lowness of cost.

Everybody in Reno is invited to inspect the stock. They may be assured that they will be interested in the display.

He is Here to Stay.

Dr. Mullinix, the Quaker doctor, treats all diseases of the eye, ear, nose, throat, lungs, heart, stomach, liver, kidneys, bladder and bowels; scrofula, rheumatism and all diseases of the skin and blood; epilepsy, paralysis and all diseases of the brain and nervous system. Cures catarrh; treats all deformities. Gives special treatment for all diseases of women.

He is here to stay and all can depend on fair treatment. He has forty years' experience. All communications will receive prompt attention.

Sorrowful are the Seniors.

There is shame and sorrow in the camp of the Seniors but the hearts of the Freshman are jubilant. Defeat was the lot of the upper classmen yesterday, after years of unbroken successes. And what is worse, the first year boys administered the drubbing.

The last game of the baseball series was played yesterday. Both the Seniors and Freshman had downed the other classes and met for the decisive game. It was a longdrawn and tedious match, marked chiefly by fumbles and fozzles. The only interesting feature was the close score. After nine agonizing innings the result, 28 to 26, in favor of the Freshmen, was announced.
